

INSULATION SOLUTIONS

With a strong reputation in the energy market, ADDEV Materials applies its expertise in technical materials and industrial production processes to the development of insulation solutions.

As a partner of choice of world-class manufacturers, we design customized value-added solutions to satisfy your technical challenges, with the highest quality standards.

PRODUCTS

THERMAL & ELECTRICAL INSULATION

- ▶ Polyimide Kapton®
- ▶ Nomex®
- ▶ Nomex® based laminates : Thermex NMN / NM, Nokamex NKN / NK
- ▶ Non-woven polyester based laminates : Tercron® DMD / DM
- ▶ Teflon™ Films
- ▶ Mylar® / Polyester

FIRE RESISTANCE

- ▶ Nomex®
- ▶ Mica tapes
- ▶ Vulcanized Fibers

CONVERTING & SERVICE

As experts, our industrial capacities help you converting the materials you need, in their most complete composition and shape. We offer you tailor-made support all-along your processes: this is ADDEV Materials added value.

THERMAL MANAGEMENT

Thermal management is an essential element in the age of ever-increasing miniaturization and power rising of electronic components. It is a question of ensuring both the longest product life and maximum performances. To achieve this goal, ADDEV Materials provides you with its materials and converting expertise. We offer a wide range of conductors and insulation that can meet your requirements in all your markets.

PRODUCTS

A wide range of solutions with:

- ▶ High temperatures resistance : up to 200°C
- ▶ High Thermal Conductivity : up to 3W/m.K

FLEXIBLES

- ▶ Technical films (Temprion™)
- ▶ Tapes (single sided - double sided)
- ▶ Thermal pads (acrylic, silicone)
- ▶ Elastomer

LIQUIDS

- ▶ Epoxy structural adhesives
- ▶ Greases
- ▶ Sealants
- ▶ Pastes
- ▶ Gels
- ▶ Silicones
- ▶ Acrylic
- ▶ Resins
